PROFESSIONAL EXPERIENCE

March 2018 – July 2018

Destin.ai, React Developer

- Planned the implementation of a dashboard that connects immigration lawyers with applicants
- Developed a fully functional dashboard prototype using React
- Developed the following features:
 - signup / login
 - input validation / authentication & authorization
 - two types of user accounts (lawyers and applicants)
 - scheduling appointments through multi-step interaction
 - creating a client application that allows users to add steps and upload documents

2018 – Present

Freelance, Full Stack Web Developer

- Developed a fully functional web platform for a property management company based on designer's prototype – www.fairmontmanagement.com. Site included a custom CMS platform using Sanity.io allowing client to easily update site content

2014 – 2017

Agility Logistics (Toronto ON), Fairs & Events Logistics Coordinator

- Coordinated international movement of Canadian goods to world's largest tradeshow (CES, Farnborough Air Show, Hannover Messe, NAB, The Big 5, Global Petroleum Show etc.), worked on complex logistics solutions.
